

# Quick Start Guide:

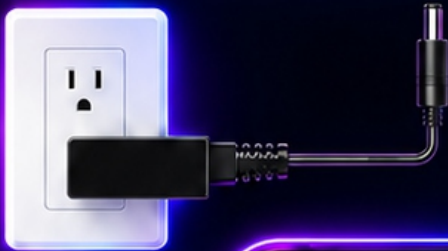

Setting up your GigaMesh BLAST u4m - Manual Setup

Western Iowa  
NETWORKS

1

Connect GigaMesh BLAST u4m to power outlet.

2

When LED is flashing red, you can pair the GigaMesh BLAST u4m with the GigaSpire BLAST 7u6 Router. Press and hold the WPS buttons on the GigaMesh BLAST u4m and then the GigaSpire BLAST 7u6 Router for **3 seconds each** (less than 30 seconds apart). The LED light will flash green while attempting to pair.

**Note:** Once successful pairing is complete, the GigaMesh BLAST u4m and GigaSpire BLAST 7u6 Router LEDs will both show a solid green color. It may take several minutes to reach this state.

3

If applicable, use the CommandIQ app to set up the GigaMesh BLAST. See the Quick Start Guide on the other side of this page for guidance.

Search for **CommandIQ**
